VEGAN
Compassion
GROUP

Thanks to the generous support of **Vegan Compassion Group**, our **Humane Education Program** continues to thrive in 2025, providing a year-round, weekly educational space for children to develop empathy, compassion, and respect for animals, people, and the environment. Held every Friday at our El Hato center, the program engages **40** children aged 6 to 12 in dynamic, hands-on learning experiences rooted in kindness and ethical responsibility.

Humane
Education
PROGRAMME

Following a culturally relevant curriculum developed by our team, each three-hour session blends interactive lessons, storytelling, videos, games, and discussions to teach conflict resolution, peaceful communication, and **the importance of caring for animals and nature.**

At the heart of the program is the message that **animals are sentient beings worthy of kindness—not resources to be exploited.**

VEGAN MEALS & FOOD EDUCATION

A key component of the Humane Education Program is the provision of nutritious, **plant-based meals** during each session. These snacks not only support the nutritional needs of children from food-insecure households, but also serve as educational tools, demonstrating that plant-based foods are healthy, accessible, and often grown locally.

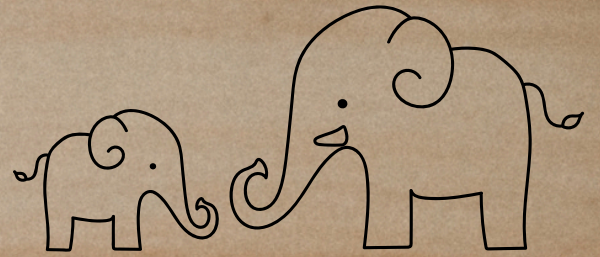

These meals introduce children to vegan eating in a practical, enjoyable way, helping them and their families develop greater food sovereignty and **appreciation for compassionate food choices.**

Gallery 2025

In addition to weekly sessions, your support has enabled us to host a special **Mother's Day celebration**, honoring the caregivers who support our students every day. This event brought together children and their mothers for a joyful afternoon of community building.

The children expressed their appreciation by preparing handmade gifts and games that highlighted themes of gratitude, kindness, and family. Vegan refreshments were provided for all attendees, allowing families to enjoy **nutritious, plant-based options** while celebrating together.

This event was more than a celebration—it was **an opportunity to share the values of the program** with caregivers, reinforcing the messages children learn each week and deepening the impact within the home.

Thanks to the compassionate support of **Vegan Compassion Group** in this year, our Humane Education Program continues to make a meaningful difference in the lives of children and their communities. By combining education with nutrition and ethical awareness, **we are building a more compassionate future**—one child, one family, and one meal at a time.

We are honored to partner with you in this important work and look forward to continuing our shared mission of kindness and respect for all living beings .
